

USER ROLES QUICK REFERENCE

There are 9 assorted user roles, each determined by an individual's assigned permissions: Guest, Staff, User, Owner, Collaborator, Approver, Area Editor, Area Manager, and Site Administrator. Any of these permissions are assigned by a user with Site Administrator permissions.

Role	What does the Role do?	How is this assigned?	What documents can I edit?
	<ul style="list-style-type: none"> View and read a single policy (e.g. Vendor, Lawyer, Auditor, etc.) 	Guest is provided a Read-Only Policy Sharing Link specific to a policy.	No edit permissions.
	<ul style="list-style-type: none"> Search for, view, and read any non-restricted policies across PolicyStat 	Staff are provided a Global Guest Access link .	No edit permissions.
	<ul style="list-style-type: none"> Search for, view, and read any non-restricted policies across PolicyStat Acknowledge an assigned policy 	A User account is created to login to PolicyStat.	No edit permissions.
	<ul style="list-style-type: none"> Edit any policies for which they are designated as the Owner Edit their own documents Start the review process Approve if included in the workflow Comment during collaboration Retire policies (if allowed by Site Administrator) 	The User is assigned as an Owner for at least one policy.	Edit and manage their policies, drafts, and pending documents.
